Note: this page contains the optional bits for the model.

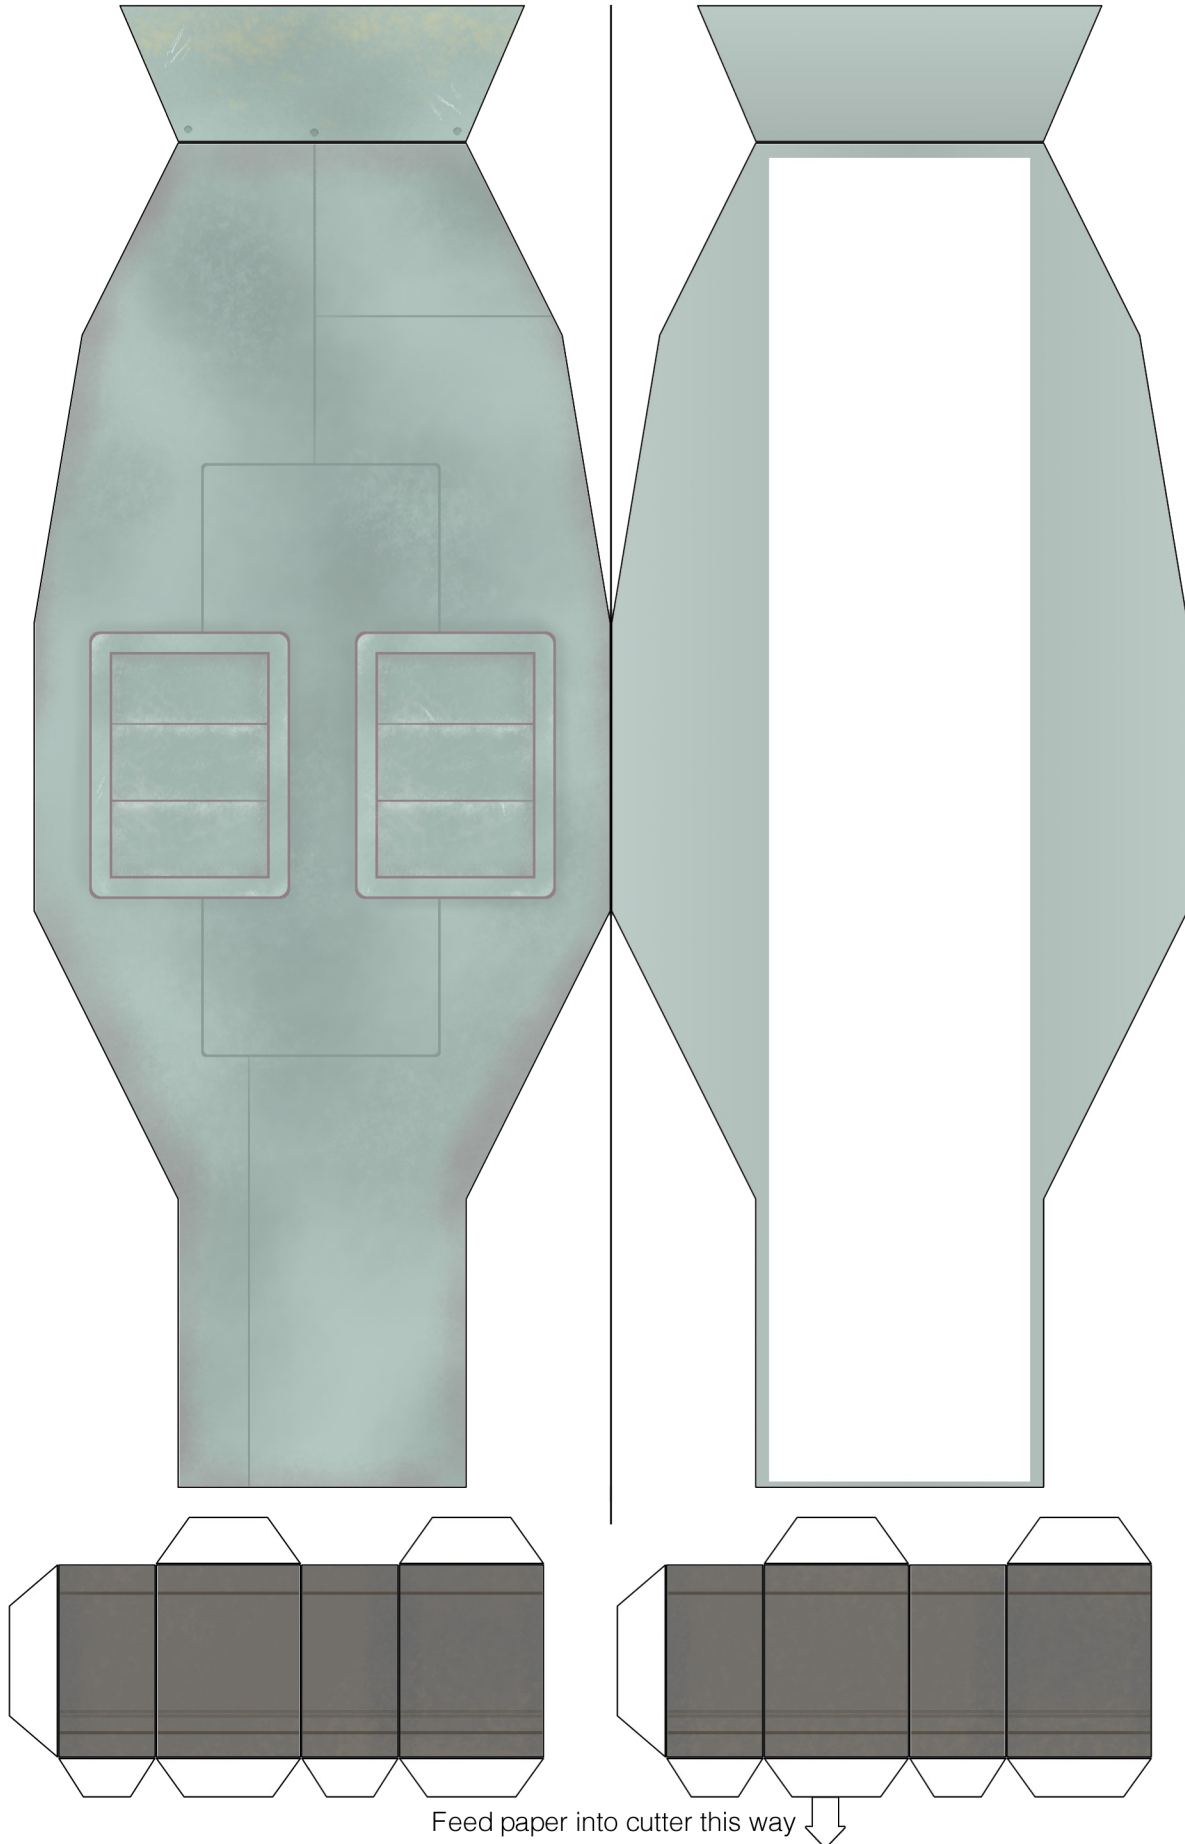

General tips: cut and prepare all pieces, start by glueing railings and weapons. Make a tube with the long box, leave its ends open and glue under main floor. Keep the back of the other box open too until the end of assembly. Glue the front "skirts" last.

Also, if printing on heavy cardstock, you may want to trim the tabs marked with an X

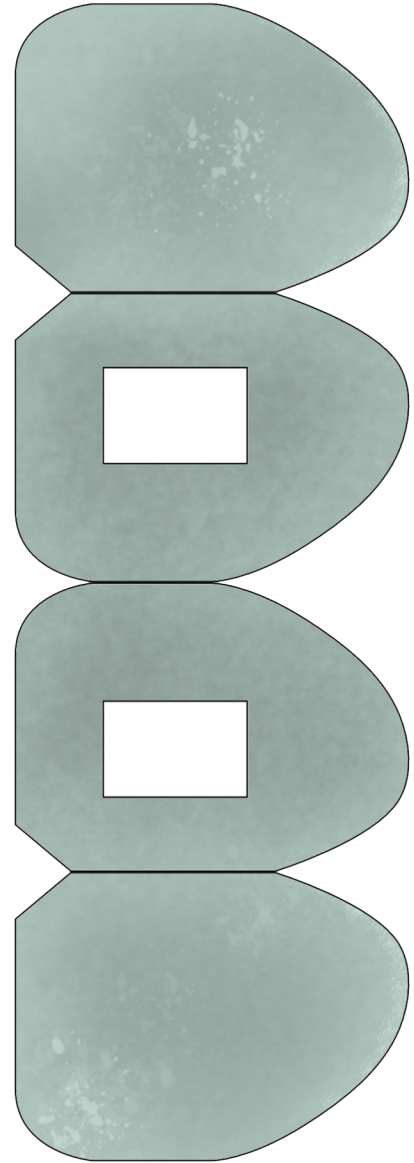

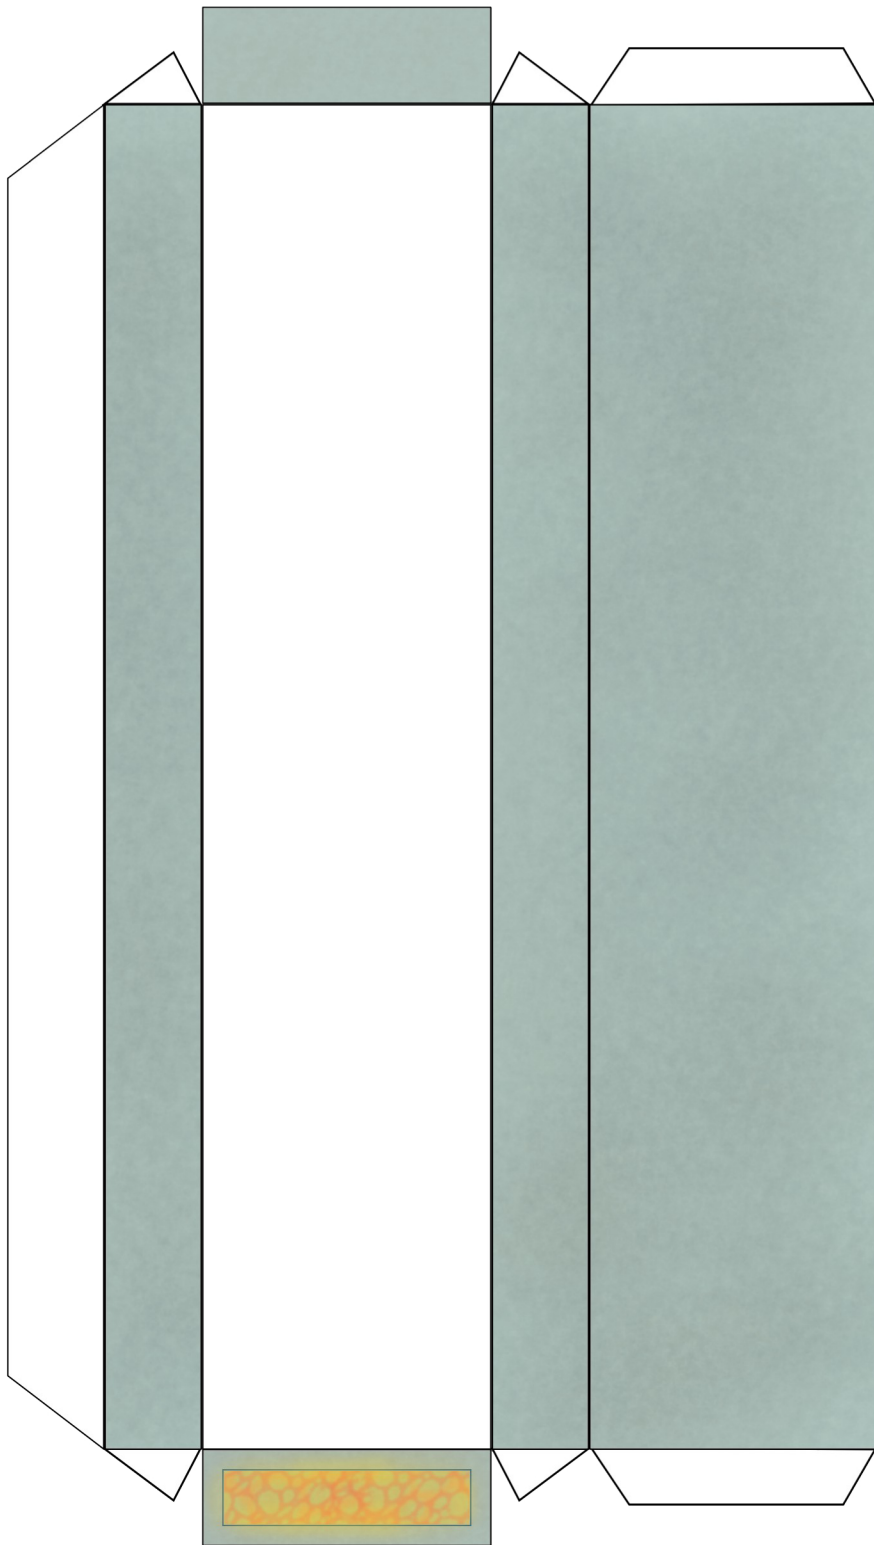

Feed paper into cutter this way ↓

Printing: turn scaling OFF, have centering ON, set to GOOD or BEST setting, Use Matte Photo paper for best results.
