proudly presents

# **THE TOURNAMENT GROUNDS TILE SET**

A fantasy papercraft accessory  
scaled for 28 mm miniatures

## **The Tournament Grounds Tile Set**

Thank you for your interest in my Tournament Grounds Tile Set. It contains several 6 x 6 inch tiles that together comprise a full tournament ground with lawn, tourney lanes with curved ends, bases for grandstands and areas covered in wood chips. Each tile is provided in gridless form and also with a 1-inch-grid overlay.

The pages are in US Letter format – if your printer uses a different paper format please take care to choose 'actual size' for you printer settings.

The tiles can stand on their own and can also easily be used for country roads with deep hoof prints or for green areas, but they are meant to be used with the Tournament Model Set which was also designed for the 2016 Papercuts Award on the cardboard-warriors forum. This is a free product.

Have fun!

The Soaring Raven
